Fortune Ndlovu

Front-End Developer, UX & UI Designer.

Passionate engineer, willing to work with and as part of a team. Experienced in using VS-Code, Figma, and Agile methodology for team-based projects that are user-friendly, scalable, and drive high-performance web experiences.

Education

Bachelor of Science (Honours) Creative Media and Design

Technological University of the Shannon: Midlands Midwest

September 2020 — Present

- The degree focuses on equipping us with knowledge and skills related to User Interface & User Experience Design, Interaction Design, Visualisation (in both an interactive and non-interactive context), Augmented and Mixed Reality, Web Technologies, and Motion Graphics.

- **Student representative:**
  - Key liaison between the academic staff and classmates.
  - Organized study sessions for up-skilling in HTML5, CSS3, and JavaScript libraries.
  - Negotiated solutions to healthier student lifestyles.

Projects

- **Activity Tracker (2022):**
  - Orchestrated and developed the front-end infrastructure.
  - Wrote, clean, consistent and predictable JavaScript code.
  - Analyzed errors, by tracking and problem solving strategically.
  - Sorted algorithms for date, time-duration, and range.

- **AcmeHomes Website (2022):**
  - Assembled the website using the laws of UX and followed the WCAG guidelines.
  - Enforced healthy codebases, coding style and standards.
  - Improved design, accessibility and overall experience.

- **ThreadLair Website (2021):**
  - Collaborated in a UX/UI team based project.
  - Demonstrated solutions for leveraging our users' existing mental models.
  - Supported my team by designing and developing tasks.
